Dear Ray

PAINTING OF UNIT AT EMOYENI, CHANCLIFF, KRUGERSDORP

I would like to take this opportunity of thanking you for the professional and outstanding service and workmanship I have once again received from your company.

My initial introduction to Rock Construction was in 2003 when the company was appointed to paint the Brait SA Limited building in Fricker Road, Illovo. The building comprises approximately 9000m² and as a result of the knowledge, professionalism and integrity of your representatives, Francois and Kevin, as well as the high standard of workmanship and skill of the team under the supervision of Kevin, Lyle and Amos, the process was conducted seamlessly and the results were of the highest standard. To date the building remains in excellent condition and is a flagship in the Illovo Boulevard. Over time I have had no hesitation in referring Rock to the many people who have enquired about the refurbishment of the building and personally know of several equally satisfied customers.

During August of this year I once again had the pleasure of appointing Rock to attend to the refurbishment and painting of my house on the West Rand. On contacting Lyle he immediately arranged for Greg, your Technical Sales Manager, to meet with me on site. Greg conducted a most professional and comprehensive analysis of the work requiring attention and, on acceptance of the quotation, this was commenced without delay. This included, inter alia, repairs to roof, sealing and painting of walls and treatment of wooden window frames and doors. The work was carried out extremely professionally and neatly by all involved and it was once again a pleasure to deal with Lyle and his team.

There is no doubt that Rock Construction is a company which consistently delivers excellence, goes the extra mile, prides itself on exceptional staff, know-how and skill, conducts business with high integrity and is extremely reliable.

It has once again been and is a pleasure to do business with your company.

Thank you to you all.

Kind regards

JOAN RADEMEYER
