**Attention: Ray Martini**

Dear Ray

With reference to the painting and restoration work carried out by yourselves on our office block at 2 Fairbairn Street, Rynfield, Benoni I would like to commend your company on both the quality of the work done and the professional manner in which the work was carried out.

Your site manager Jason kept me informed of the progress at all times and discussed all issues as they arose with me to ensure that the job was completed as specified. The supervisor Joseph who managed the operations on site was always courteous and managed his staff well to ensure the job was completed on time.

Thanks for a job well done.

Yours sincerely
